EMS unit bags rig reno job

Singapore-based EMS Energy's Oilfield Services & Supplies (OSS) subsidiary is set to refurbish the LYR-605 Coral Sea heli-portable land drilling rig for Talisman.

Upstream staff Monday, 18 January, 2010, 11:15 GMT

The US\$2.16 million contract, which will be carried out in Singapore, will see OSS disassemble, clean, inspect, repair as necessary, test and recertify the rig, will take about three months.

Work started at the end of December, with Talisman expecting to take delivery of the rig by the end of March.

OSS added Talisman will pay for any further repairs and other incidentals on a cost plus basis.

Flagged up: EMS' OSS unit gets to work
